To the Public.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

EVERY BUSINESS MAN who consults his own interest, will avail himself of the columns of THE DAILY SENTINEL,—especially when he can do so at the same prices charged by other papers, and secure more than double the advantage of circulation.

This is no boast, but EVERY WORD TRUE.

News Digest.

We have foreign news of the 20th, by the *Glasgow*. The Sardinians have taken Perugia and Spiletto, and the latest accounts say that they have defeated Gen. Lamoricierre. It was rumored that another attempt had been made upon the life of Louis Napoleon. Owing to unfavorable weather and crops, the Liverpool breadstuffs market is reported firm, at a slight advance.

ILLINOIS.—No well informed politician doubts that LINCOLN will carry Illinois by a large majority. The stupid story going the rounds of the lower strata of DOUGLAS organs that the Republicans have "given up the State," does not deceive anybody who is not an incorrigible ignoramus. The Republicans there are doing everything they honorably can do to swell the majority for LINCOLN to the highest possible figures. In no State of the Union, probably, has the work been more thoroughly done than in Illinois, and these efforts will be continued until the 6th of November. That is not among the doubtful States, and a Republican majority of 20,000 there would not at all surprise us.

TRIED IT AND FAILED.—The "Little Giants" of Albany boastingly announced that they were going to beat the great Wide-Awake parade of the 11th by their demonstration on Wednesday night—beat it so easy! The *Journal* says: For two weeks the busy men of the Democracy here have been doing little else than getting ready for this display, and the Wide-Awakes supposed of course they would be beaten. But they were not; for there were less than 4,400 in the "Little Giant" procession—counting music, gun squads, uniformed men, uniformed boys and all. With all their efforts, therefore, and with all their stimulus to effort, the "Little Giants" were *eight hundred short of the Wide-Awakes.*

DON'T HANG TOGETHER.—Somehow or other the statements of DOUGLAS do not seem to hang together. In his Cincinnati speech he said:

> When I commenced this canvass I did so under the promise that I should not be called upon to speak but once in two days. Shortly after I entered into it I was required to speak once a day, and here lately I have been obliged to make at least three speeches a day.

When he "commenced this canvass" he did so by declaring that he proposed merely to be a looker on in the present Presidential struggle—he should take no part in it. Consistency *is* a jewel.

A BROTHER OF JOHN WENTWORTH.—The Dover (N. H.) *Enquirer* says:—"Col. Jos. WENTWORTH, a well known leading Democrat for many years at Sandwich, in Carroll county, and brother of Hon. JOHN WENTWORTH, of Chicago, attended the Mass Meeting at Wolfborough, on Thursday, and avowed his intention of voting for LINCOLN and HAMLIN. Col. WENTWORTH, we understand, has hoisted the Republican flag at his residence in Sandwich, and enlisted for the war."

GREEN LAKE COUNTY CENSUS.—The following figures are published as the population of the several towns and villages of Green Lake County:

Brooklyn,	938	St. Marie,	430
Green Lake,	1202	Seneca,	411
Mackford,	1144	Forsyth,	917
Manchester,	1100	Berlin, (town)	1046
Kingston,	550	Berlin, (city)	1463
Marquette,	431	Markesan, (village)	469
Dayton,	704	Kingston, (village)	277
Princeton,	1500		
		Total	12,553

THE Madison *Patriot* is somewhat afraid that DOUGLAS' coming will be so "gentle" that people will not notice him. Therefore it says:

"Democrats, keep your powder dry, and your bayonets well polished. We will give due notice of the exact time of Douglas' arrival, just as soon as we know it."

THE LARGEST RAFT arrived the other day at Dubuque that ever came down the Mississippi. It contained 1,100,000 feet of lumber, and 950,000 shingles and lath.

IT IS REPORTED that the boilers of the ill-fated *Lady Elgin* were washed ashore at Waukegan Sunday morning, by the equinoctial storm.

SHOCKING AND FATAL ACCIDENT.—An awful accident occurred on Friday, the 21st inst., in the town of Victoria, Cayuga Co., N. Y. The wife of Mr. Charles Sayre, while in the operation of kindling a fire, poured a quantity of burning fluid on the fuel in order to make it ignite more readily. The moment fire was applied a puff of wind swept the blaze over the can containing the fluid, which had been placed in close proximity, and it instantly exploded, throwing the contents over her person. Her cries for help brought her husband to the spot, who succeeded in extinguishing the flames, but not until she was burned in a horrible manner. She lingered two days in great agony and then expired.

Such a dreadful affair as this should be a warning to those who will persist in the imprudent use of burning fluid.

A CITIZEN OF MAINE WHIPPED IN SOUTH CAROLINA.—The Charleston *Mercury* of the 19th has the following under the head "Served Him Right:"

A man named Wm. S. McClure, hailing from the State of Maine, was on Saturday last, by order of the Vigilance Committee, whipped by a negro at Grahamville, for tampering with slaves in that vicinity.—McClure was then placed on the cars of the Savannah & Charleston Railroad, and arrived in this city yesterday, and given into the charge of the Mayor, who will ship him by the first conveyance to the North.

MADAME JENNY LIND GOLDSCHMIDT, with her husband and two children, has arrived at her native city, Stockholm, where she received a most enthusiastic welcome. The family are spending the season at a villa in the neighborhood of the city; but we believe M and Madame Goldschmidt have made England their permanent place of residence.

CARL SCHURZ says the Declaration of Independence was a humbug. If the gifted Dutchman has found it out already, he is foolish to stay in this country longer.—*Pomeroy, of the La Crosse Union.*

Comment is uncalled for.

THE WITTIEST caricature in circulation in political circles, represents Mr. Douglas across his mother's knees, receiving a flogging for being associated with that infamous Nebraska "Bill." Uncle Sams looks on approvingly.

BLONDIN wanted to carry the corpulent singer Amodio, on a rope, at Niblo's, and Amodio was willing, but the manager did not encourage the enterprise.

THE ANNUAL ADDRESS.

At a little after 12 o'clock Gov. Randall began the annual address to a large audience seated on the hill near the "Temple of Art." It was read distinctly, contained good matter, and obtained considerable applause.

PRESENTATION OF PRIZE BANNER AND SILVER GOBLET.

Between 4 and 5 o'clock the very handsome banner presented to the county taking the premium for the best exhibition was received by the representatives of Pierce Co.—The presentation was witnessed by a numerous audience, and Secretary Hoyt made some brief and appropriate remarks worthy of the occasion.

The banner is of rich silk and satin, and is edged with heavy gold fringe. On one side the terms of the award are lettered in gold, and on the other a beautiful painting of Minerva, the goddess of wisdom, of war, and of the liberal arts, surrounded with agricultural emblems, aptly completes the chaste finish of the banner. It was manufactured by Messrs. Dubois & Co., of Chicago, and it certainly sustains their reputation.

The Silver Goblets for the best cultivated farms were presented by Treasurer Atwood. E. W. Edgerton, of Waukesha, and William Smith, of Kenosha, were the recipients: The first took a silver pitcher worth $50, and the second a silver goblet worth $30.

HOOK AND LADDER COMPANIES' TRIAL.

In our last we gave a brief unofficial account of this interesting and exciting trial. We now give an account derived from an official source.

Two companies entered, Rescue Hook and Ladder No. 2 Milwaukee, and Capital No. 1, of Madison. Messrs. McGlia of Madison, and Buening of Milwaukee were the judges. The Rescue truck was manned by 28 men, and the Capital by 16 They ran half a mile and 4 rods and raised ladders with the following result: Rescue, 2m 32s; Capital, 2m 48s. The silver trumpet worth $65 was awarded to Rescue company.

Considering that the full number of the Capital boys were not at the ropes, some of their best men being absent, they did well, and by the frank and good natured manner in which the gallant sixteen bear their sixteen seconds defeat, they show that they are not wanting in the true metal of manly firemen.

We gave an account of the Engine Company trials in our last, and we embrace this opportunity to add that excellent order was preserved during the trial by Foreman Bush of the Madison Sack Co.—He kept the crowd mannerly and good tempered with his usual courtesy and added much to the effectiveness and comfort of the creditable displays.

Treasurer—David Atwood, Madison.

STRANGE SUICIDE—A MAN CUTS HIS THROAT FROM EAR TO EAR WITH A PIECE OF LOOKING GLASS.—An Irishman named James Fortune, who boarded on Mill street, near Third committed suicide evening before last, using the rather singular weapon, a piece of looking glass. He entered his boarding house about seven o'clock, and asked of several of his fellow boarders for either a sharp knife or a razor. He acted quite strangely, and it was thought by them that he contemplated the commission of some dreadful deed, and his request was consequently refused. Fortune muttered a few words to himself, and then retired to his room, and taking a small looking glass out of a frame, he broke it in three pieces, and with the fragment having the most jagged end he succeeded in cutting his throat, the gash extending from ear to ear. He fell heavily to the floor, the blood streaming from the wound. Several persons rushed to the room and discovered what Fortune had done. They immediately conveyed him to the hospital, but notwithstanding the best of medical attention was given to him, he died within two hours.

The deceased was between thirty-five and forty years of age, and unmarried. The cause of the deed is supposed to have been insanity, superinduced by an excessive use of spirituous liquors. Such was the verdict arrived at by the Coroner and his jury.—*Cin. Gazette.*

GRANT A FRUIT-RAISING COUNTY.—If anybody thinks that apples cannot be raised in Grant county, he ought to have been at the late Fair. There he could have seen farmers having on exhibition no less than thirty-seven different varieties, and all as perfect in formation as could be wished. If he also would wish to see how the orchards appear, and to know their bearing capacity, let him go about four miles north-west of Platteville and see the orchards of Henry Utt and Jesse Waldorf. There he will see as pleasing a sight as he ought to wish for in this latitude. The trees are so full of fruit that some of them are very much bowed with its weight. Other orchards of equal age, and having the same care, throughout this county, present the same pleasing appearance. Almost every farmer now has some kind of an orchard, and the trees seem to be growing thriftily. Grant, after a while, will be a first-rate fruit county.—*Grant Co. Witness.*

DAMAGED WHEAT.—We hear considerable complaint among threshers and farmers of the injury wheat has sustained by the late rains where it was poorly stacked. In the hurry of harvesting and scarcity of help, farmers were not particular enough to have their grain properly stacked and as a natural consequence the wet weather of the past three weeks has caused it to heat and grow. Some farmers will lose hundreds of dollars by their carelessness. This should admonish farmers to build barns, or at least, see that their crops are securely stacked.—*Berlin City Courant.*

PHILADELPHIA PAPERS say water gas has been burnt so successfully at the Girard House in that city during the past three months, that arrangements are now on foot for the erection of numerous works for the manufacture of gas according to the process of Dr. Sanders, in New England, New York, New Jersey, and several of the Western States.

AN OX ROASTED ALIVE AND A MAN FLAYED ALIVE.—The former was done by nobody knows whom, for the gratification of Senator Douglas, the latter by Carl Schurz, of Wisconsin, on Tuesday night, at the Cooper Institute, in defence of the truth; and the man for whom the ox was roasted was the victim.—*N. Y. Com. Adv.*

PAINFUL CASUALTY.—A little son of H. E. Stebbins, of this city, between 3 and 4 years old, was drowned on Tuesday evening last, by falling into a cistern. The community will sympathize with the deep grief of the stricken parents, in the sudden loss of their child and dearest treasure.—*Berlin City Courant.*

YOUNG MEN'S CHRISTIAN ASSOCIATION.—Although this Association is making but little noise, it is nevertheless quietly doing its beneficent work, if we may judge from the following, which we take from the Troy (N. Y.) *Whig:*

"BEAUTIFUL INCIDENT.—At the daily 3 o'clock prayer meeting, soon after the opening yesterday, Mr. Degolyer, President of the Young Men's Christian Association in this city, stated that he had a communication from the Y. M. C. A. of Milwaukee, which so clearly illustrated the power of religion, that he felt constrained to read it. It stated in substance, that a member of the Association, highly esteemed here, had been very ill, dangerously so—that he had been cared for by the Y. M. C. A. of Milwaukee—taken from his hotel into one of their own families, surrounded with all the attention Christian hearts could suggest, providing him with medical treatment, and nightly attending him from their own number."

We understand that the anniversary meeting of the Association, which was adjourned from Thursday last, on account of the Requiem, will be held on the evening of Thursday, Oct. 11th, in the Plymouth Church, where an address will be delivered by the Rev. Mr. CORNING.

The objects and design of the Association are in the highest degree good, and if the members prove themselves worthy of the cause in which they are enlisted, it cannot but be of great benefit to the city.

A GENTLEMAN of this city lost a son on board of the *Lady Elgin*. A son that was a favorite with all who knew him. The family had no portrait of him and many regrets were expressed that they had not secured a Daguerreotype at an earlier day. This gentleman was conversing with a friend recently near a Daguerreian artists' he suddenly stopped in the middle of a sentence and appeared to be struck dumb; his eyes protruded, and he evinced all the signs of a man whose attention is suddenly rivited by some deeply interesting or startling vision.

The cause of his singular conduct was this: There in front of him in the case hung a lifelike representation of his boy.—His joy at being able to possess even this shadow, can be imagined.

It seems the young man had some time before had a likeness taken, and the artist had duplicated it, as is their custom, and hung the copy in his show case.

THE MUSIC STORE OF THE STATE.—HEMSTED now has the finest and most complete Music store in the State of Wisconsin, of which fact we wish our country friends to take notice. It is a music depot, where all the latest musical instruments can be obtained. Brass bands can be supplied here as well as by sending to New York. Amateurs may select from a choice *repertoire*, that which is recent and most popular, and here, too, can CHICKERINGS and STEINWAY'S superior pianos be bought.

Then, again, Mr. HEMPSTED has added a large stock of fancy articles, fans, canes, oil paintings and a new style of patent umbrella that weighs something less than five ounces, all of which have been selected by a *connoiseur*, and are adapted to the tastes of a musical people.

Friend STREETER, who presides at the counter, is a man after our own heart; a musical man—high strung, brilliant when at concert pitch, and who persues the even tenor of his way with an air that is second to no musical connoisseur in town. Success to the Wisconsin Music Store—improved.

DELEGATES TO THE COUNTY CONVENTION.—*First Ward*—J. Selleck, Jas. Mullaby, Henry Smith.

Second Ward—S. W. Granger, Geo. Tyre, Dr. Selby.

Third Ward—John James, John French, Owen Pritchard.

Fourth Ward—J. A. Phelps, D. Schultz, Winfield Smith.

Fifth Ward—Andrew Mitchell, John Rugee, Carl Olsen.

Seventh Ward—John Nazro, H. F. Prentiss, M Ottenbourg.

Ninth Ward—Sam. Brown, N. Schause, Edward Baker.

THE CYCLORAMA OF IRELAND.—This interesting exhibition, which we find so highly spoken of by the Chicago papers, arrived in our city last evening *en route* for New York. The proprietor, Prof. MACEVOY, intends to exhibit the paintings on Wednesday evening, at the Academy of Music, for the benefit of the sufferers by the late dreadful calamity.

MESSRS. HASSETT & CHAPMAN have put down an excellent flag pavement across East Water street, in front of their store. It is a great convenience, and will be much used.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—The regular monthly meeting of this Association will be held this (Tuesday) evening at 8 o'clock, in their rooms.

Capt. Wm. S Cross for Sheriff.

MR. EDITOR:—The nominations made by the Democratic Convention can be beaten, providing the Republicans put up good men. There are some men looking for the office of Sheriff who, if nominated, would defeat the whole Republican ticket The name of WM. S CROSS has been spoken of by a great many Republicans for Sheriff. He would fill the office to the entire satisfaction of the people. Mr. CROSS is a man who does not believe in buying up delegates, in order to get the nomination; but if nominated, will do all he can to be elected. If the Republicans will nominate WILLIAM S. CROSS, for Sheriff, *he will be elected.* REPUBLICAN.

More Bodies Found.

WAUKEGAN, Oct. 1, 1860.

To Beck, Chief of Police:

Body of young man found—about five feet and seven inches high; a number of cards found on body, marked "J. L. DAVIS, 178 East Water Street, Milwaukee"; pocket-knife, twenty five cents and a Lincoln badge in pocket

Body of a man found—about five feet three inches high; black pants; gaiter shoes; ten ($10) dollars in gold and silver.

They await your order.

B. PORTER.

REPUBLICANS OF MILWAUKEE:—What are you doing? Have you come to the conclusion that LINCOLN's election is certain, or that, if there is any doubt about it, Milwaukee is not the battle ground where the question is to be decided, and so quietly folded your hands and gone to sleep? Meetings are called in your various wards. You read the call in your papers. You don't feel like going out. You are tired—your parlor is warm and cozy, you have a book to read, and on the whole, you conclude you would rather not go. Don't you know that it is not merely a question of inclination? There are a *few* men who work just as hard as you do during the day, and have just as comfortable homes to tempt them at night, who get so regularly to those meetings. But how can a dozen men get up any enthusiasm, when they know that a hundred of their brethren, who ought to be with them, are indolently hanging back? They appoint you on committees. You decline, or, worse yet, neglect to act. Last spring when the Democratic powers were plundering our City Treasury with such extraordinary boldness that you couldn't help seeing it, you woke up and behaved manfully. If you were defeated, your defeat had almost the force of a victory. Are you going now to let the enemy take back all you then gained? You know that if you can carry the city for "Honest Old Abe" this fall, you can carry it for honest men in the municipal election next spring. The remark is often made, "The Republicans *might* carry the city if they would only work." Why don't you work then—YOU? Go to the next meeting in your ward. Go to the next meeting of the Central Club. If you are appointed on a committee, do your part like a man. Get up some enthusiasm, and your neighbor will catch it, and then his zeal will increase yours. Let the whole city be awake. Then there will be no such thing as failure. Even if we do not give a majority for LINCOLN, we will make such havoc in the enemy's ranks as shall fill him with dismay, and insure our final triumph. A.

CHANGE OF BUSINESS LOCATION.—STRICKLAND & Co. have taken the store lately vacated by HASSETT & CHAPMAN, No. 185 East Water street, and will move their Book, Stationery and Wall Paper stock into it as soon as the building can be made ready for them. By this move they expect to unite the retail with the wholesale trade, which they have secured by the enterprise and perseverance which has characterized the house heretofore. We would improve the opportunity to cite the success of this house as largely due to the judicious and liberal use of Printer's Ink; an example worthy of imitation by some of our business men.

RAILROAD ACCIDENT.—The M., W. & B. V. R. R. freight train was detained at Elm Grove several hours on Saturday, by the switch being turned down and the train running off the rail. The engine, tender and some ten cars went off, and were not got on again till late at night. The M. & M. R. R. train had to change off, which put them behind time several hours. No one was hurt, and there was not much damage done to the engine and cars.

NEW MUSIC.—HEMPSTED has just published a new piece of music called the *Carnival Varsovienne*, composed by CH. BACH of this city. It is a brilliant composition, and will speedily become popular with all our young pianists.

HEMPSTED has on hand a large assortment of new sheet music, comprising all the latest and most popular songs, waltzes &c. Call and look over his new stock at 266 Main street.

THE PLATTEVILLE *Witness* states that Mr. OTTEBOURG, of this city, addressed a large number of Germans in that place on the 22d ult., and says:

"Mr. Otterbourg is a very graceful speaker, and if the frequent bursts of applause with which he was greeted were any indications of the ability of his speech, it must have been well worth listening to by those who understood it."

WHO IS SETH JONES?—We protest against SETH JONES making popularity by exciting the curiosity of the people. SETH JONES may be a prodigy, a living wonder, a miracle, and he may be only a four cent man who is to deal out eloquence at our corners!—Who can tell? SETH JONES, SETH JONES, what are you up to?

CHILDREN'S CONCERT.—The concert of the Sunday School children takes place to-night, at Albany Hall, under the direction of Mr. SAMUELS. A number of new pieces will be sung. The concert is for the benefit of the Mission Churches of our city.

MUNICIPAL COURT, Oct—John Altmer, drunk. Penalty and costs, $3,97, paid.

John Smith, ditto. Penalty and costs $3,00, paid.

The Grand Jury for the October term is now in session.

THE MEMBERS of Engine Co. No. 5, feel greatly proud of their achievements at Madison, and they announce that all who wish to see the silver trumpet, are invited to visit the Engine House of No. 5 to-night, at half-past seven o'clock.

THE HORSE SHOW opens this morning.—Over one hundred entries have already been made. The grounds are those known as the Cold Spring grounds, about two miles west of this city. Be on hand everybody.

FLOUR MILL FOR SALE.—See advertisement of a valuable Flour Mill for sale in Duchess Co., New York, opposite Newburg, one mile South of Fishkill Landing.

The House, the Man, the Principle.

We, the other day, gave a detailed description of the new store of Messrs. HASSETT & CHAPMAN. It now becomes our pleasing duty to chronicle the completion of another edifice equally as handsome, to be devoted to the same trade—the dry goods business.

J. L. DAVIS is now fairly ensconced in *his* palace, and the admiration of the public is diverted into a new channel. This dry goods business is becoming a wonderful branch of trade in our town. The most enterprising men are engaged in it. The most costly edifices are erected for it, and the advertising columns of the papers are given up to it. It *is* a great branch of trade. "Certainly," says the wonder-struck "provincial" who walks into the great halls on East Water street and becomes bewildered in the maze of ornamentation and the luxurious details of the trade. But nobody evinces any surprise at this successful culmination of DAVIS. Everybody, down to the apple woman who peddles fruit, knew that he would come out just so. It was inevitable. People reasoned from general principles, and those who never reasoned knew by instinct that he was on the right track, and that a palace with DAVIS at the head of it was one of those things that no one ever questioned. So there is not so much surprise at this new and gorgeous structure as there may have been at others.

When we started to do this establishment we took an extra Faber No. 2, a choice collection of adjectives, and a smiling face with us. We first surveyed the place from a well chosen stand point on the opposite side of the street, remarking to ourselves that ADAM GRANT knew a thing or two after all, and Mr. SCHMIDTNER was an unqualified genius. Having inwardly scored this tribute we passed over and got under the shadow of *that* window. And such a window!—did we say window?—windows are generally "let into" the front of a house but in this case the the front has waived all right in favor of the glass.

It is twenty-six feet wide and nine feet deep and 15 1-2 feet high—positively a magnificent abyss. We don't carry a "three foot" rule, so we took the carpenter's word for it. There is something significant of the man in this great glass receptacle; it shows that the gentleman is fully up with the age and means to make a display; means to keep the things the people want and means to show them. So when this textile diorama is in motion with rainbow hues streaming down and blending in costly tints and tissues, a small indication is given of the interior.—This show window is acknowledged to be superior to all other show windows, to "take the rag off" of all the show windows recorded in palatial annals.

It is lighted by two splendid silver-plated reflectors in the top which throw the rays of light vertically upon the goods.

On either side of the *window department* there are entrances. That is, there are north and south entrances, so that a lady approaching from either direction need not fatigue herself by going around the diorama.

The interior of the main, or retail room, which is 100 by 40 feet, doesn't strike you as being inordinately ornate. Nothing is in danger of tumbling to pieces with its own richness. There is a subdued air of chaste beauty—a roomy grandeur that pleases you, however; and, as the place was constructed, not for a temple of fine arts, but to sell dry goods in, you may see the good taste displayed in sparing superfluous ornaments, and expending so much skill and comfort on the ideas of comfort, convenience and systematic accommodation.

In a word, the proprietor had an eye to business; and it would be impossible to find a store west of LORD & TAYLOR's, where every plank and nail has been so contrived as to aid the storekeeper in his duties of classification and distribution. It must not be supposed, however, that we say the store is not elegant. Rather let us be understood as saying that, interiorly, it is the most elegant store in town, taking into consideration the object had in view by the constructor.

Its great width will probably influence all in forming an opinion. Space is so desirable in a dry goods store, where so many of the dear creatures congregate. Many of our dry goods stores are mere crevices, into which the customers crowd single file. Not so here. The tier of shelving in the center of the room divides it into two commodious aisles of nine feet width. This tier of shelving is surmounted with a heavy white cornice, and is encircled by black-walnut counters. It extends twenty-eight feet until it reaches the enclosed space reserved for the parcel clerks.

The center of the store is thus to be devoted entirely to the display of laces, embroideries, gloves, hosiery, &c. The department on the South is for domestic goods, prints, ginghams, linens, flannels, &c. That on the North side, for fine dress goods, silks, merinos, delaines, &c. In the rear of the North Department is that of the cloaks, shawls and mantillas—neatly, or rather luxuriantly, carpeted. Each department, of course, is enclosed in counters. Those in the center of the store are surmounted by highly polished brass rods, upon which goods may be displayed to the best advantage.

The parcel clerk's department is nine feet square. Here all goods after being sold, are brought by the cash boys, and are examined before being done up and delivered, so as to preclude all possibility of mistake or confusion.

The cashier's office adjoins this. It is spacious and lined with a continuous desk.—The cashier gives no change until the goods are examined by the parcel clerk. Here is selling reduced to a rule. All the bustle and business of a large establishment is pressed into a smooth channel and must perforce run along smoothly.

At the rear of the room the stairs are seen leading up to the carpet room. The staircase itself constitutes no small part of the beauty of this store. It is supported by two heavy columns and branches north and south at a landing.

On the second floor we have the carpets oil cloths and house furnishing goods, a department of trade in which Mr. DAVIS is acknowledged to excel. This room is 40 by 100. On the third floor there are two rooms, one 40 by 75 to be used for reserved stock and jobbing goods; the other 25 by 40 used for a cloak and mantilla manufactory.—where the young ladies of this establishment will fabricate those extra garments so well known among the Milwaukee people.

In the basement Mr. DAVIS has fitted up a dressing and bathing room for the use of the employees of the establishment. The remainder of the lower department is reserved for receiving goods to be marked before delivery and distribution.

The building is heated by one of CULVER'S No. 6 furnaces, put up by HASBECK & Co.

Mr. DAVIS has taken especial pains to illumine every corner of this house with a flood of light by night and by day. The windows and skylights are so arranged that every department is well lighted, and the gas burners, which are of extra finish, are arranged with a view to this end. The fixtures were put up by JAMES FERGUSON.

Now we have used up the adjectives and the Faber No. 2, and something remains to be said of the man and the principle. We are assured on all hands that Mr. DAVIS' store is a ONE PRICE STORE. Our experience testifies to this. We had occasion to buy some muslin for ——; well, no matter what for, and consequently we feel as though we could speak knowingly.

There are many ways of conducting a large establishment, and we rather guess DAVIS has got hold of the right way. His business capacity is no more notorious than his liberality. He has reduced the art of trading to a system, and not by an arbitrary rule, which will offend more by its inexorable character, than will admire it for its abstract beauty. He isn't content to say—"Here I am, and here's my rules; come and buy, or stay away"—but he says, rather, "come all; we will try and suit you; if not one way, we will by another." He adopts himself to the people and the times. He hangs out his banner in every newspaper in the State. He carries his business out into the world—pushes it over the counter, and makes it do duty up and down the North-west There's your man of enterprise.

As a type of the successful North-western merchant, Mr. DAVIS stands prominent, and somehow or other, we have noticed that while he is making customers, he is making friends! Nothing more can be said in his praise. We wish him success in his new and elegant store, for he eminently deserves it.

The D. & M. Railway Steamships.

CHANGE OF TIME.—The Detroit and Milwaukee Railway steamships yesterday commenced running on the new time table. The *Detroit* sailed from this port and the *Milwaukee* from Grand Haven at 8 o'clock last evening; the former taking a full load of freight, and quite a crowd of passengers.—To-night the *Milwaukee* leaves here, and the *Detroit* Grand Haven, and so on through the week, one or the other of the steamers leaving each port at 8 o'clock every evening. This arrangement will continue until next Spring, as it is confidently expected the steamships will be able to cross the Lake regularly all through the Winter. Although last Winter was more severe than the average of winters in this latitude, had they been in running order, they would have been able during the greater part of the time, to have made their trips with as much regularity as in Summer. That they will do this the coming Winter, we have not the slightest doubt. In fact we think there is less difficulty, and if possible less danger for such steamers as the *Detroit* and *Milwaukee* crossing the Lake in mid-winter than at any other period of the year.

In the first place storms are less frequent than in the Fall and Spring, and as for ice, it never forms in sufficient quantities on Lake Michigan to obstruct navigation in the slightest degree. In the next place, there are no other vessels running on the Lake in Winter, and therefore no possibility of collisions.

Now that the public are especially sensitive about the dangers of steamboat traveling, it may not be out of place to add a word in reference to the superiority of these vessels above ordinary Lake steamers. They are built in the same style as ocean steamers, and for their size more substantially than any other passenger steamvessels now afloat. The hull of each is divided into three distinct water-tight compartments, and two of these are subdivided by an under deck, which aft of the engines forms the floor of the dining hall. It would, therefore, be utterly impossible to sink one of them by a collision, and in case of any accident happening to their machinery, they are fully equipped with sails and rigging. They are built of unusual strength and of the very best materials, as will be seen by the following, which we extract from a description of them written by the gentleman who superintended their construction:

The keels are of white oak, 12 by 14 inches; centre keelsons 15 by 14 and 14 by 12.—The frames 6 side inches, are moulded 15 inches at the heels and 6 inches at the top height, and are placed two feet from the centres. They are diagonally braced with iron straps 3 1-2 inches wide, and 5-8 inches thick. They are placed the same distance from centres as the frames. The space under the engine and boilers is filled in between the frames, forming a solid mass of timber 90 feet long, and bolted with iron bolts 1 inch in diameter. The engine keelsons are 2 feet 9 inches wide and 4 feet 6 inches high, securely bolted to the floor timbers with 1 3-4 inch screw bolts. There are six side keelsons, 12 by 12 inches square, running the entire length of the vessel, and square bolted with 1 inch iron bolts. Above these are 6 bilge strokes 16 by 12 inches, and also square fastened with 7-8 inch bolts. The clamps are 5 inches thick and 32 inches wide; the ceiling between the clamps and bilge strokes is 3 inches thick, well fastened with 9 inch spikes.

Besides this, on the inside of the ceiling are six strokes of arches, 5 inches thick and 8 inches wide, running from the keelsons at each end of the vessels, up under the beams amidships. These are secured by 7-8 inch bolts driven from the outsides and rivited in the insides of the arches. The bolts are as close together as the frames will admit. The deck beams are 9 by 9 inches square, and placed three feet from centers. The wheel-beams are sided 18 inches and moulded 16 inches in the center, and 12 inches at the ends. The guard-beams vary from 8 to 10 inches square. The entire deck frame is secured to the hull with 160 lodge knees, and 122 diagonal knees spiked from 5 to 7 inches, besides a large number of hanging knees, sided 9 to 12 inches. These are all fastened with iron bolts from 3-4 to 1 inch in diameter. Under the main deck is a tier of stanchions, running from the center keelsons to a stringer fitted to the lower side of the beams. These are securely fastened with 3-4 inch bolts.

The lower decks are also secured to the hull with knees, well fastened. The guards are braced with heavy white oak timbers, secured to the hull with iron straps, and besides the usual "hog braces" they are kneed on the outside. The guard board strokes are 9 inches thick, and 16 inches wide, and are bolted through the keel with inch bolts. Between each frame the plank on the bottom is 3 inches thick; those on the sides from 3 to five inches thick, all of the best quality of white oak, square fastened, with large spikes, and bolted with 3-4 bolts driven through the plank, timbers and ceiling and rivited inside. From the deck to the rail the frames are the same as below, and the bulwarks, on the inside and outside, are two inches thick. Under the rail, both inside and out, and running the entire length of the steamers, are two oak stringers, 3 inches thick and 12 inches wide. These are bolted together through the timbers; and the rail, which is four inches thick and 14 inches wide, is securely bolted to the end of the timbers, and also to those stringers, *thus forming a complete arch, and adding four feet to the depth of the hull.* This is an entire new feature in steamboat building.

Immediate notice of these appointments should be given by the Republican clubs at the several places designated.

The Slanderers of Carl Schurz.

The two or three Democratic sheets destitute of principle, saw fit to garble a portion of SCHURZ' Springfield speech, and mendaciously represent that orator as ridiculing the Declaration of Independence.

These papers in the East were immediately responded to by the Republican Press, which simply published that portion of Mr. SCHURZ's speech, which had been distorted, and the contemptible nature of the Democratic act became apparent. Since then we have heard no more of CARL SCHURZ on the Declaration of Independence, from the original liers. But the thing has at last got into Wisconsin, and a certain number of the DOUGLAS sheets are harping away at the old string, with an avidity which proclaims its importance to their cause.

It is disagreeable to be compelled to say that the Wisconsin Democrats are too fond of a dastardly trick to give up this great "holt."

They abandon argument and cling to this miserable falsity, with all the determination of dying men.

HOW THE PRINCE OF WALES TRAVELS.—Some people, when they go from one place to another, calculate upon their "luck" in putting them through, others travel on their "muscle," others on their "beauty," others on their "talents," (very few in number,) others on their "impudence," and others on "dead head" tickets; but with Lord Renfrew it can be emphatically said that he travels on his money. From Cincinnati to Pittsburgh he pays the modest sum of two thousand dollars for a special train; but while he pays in accordance with royalty, he expects to receive immunities not granted to ordinary men. The train which bears His Highness has the entire right of the roads. An engine, specially detailed, precedes the train to keep the track clear, and look out for any imperfections in the road that would jeopardize the safety of the train containing the Prince and royal retinue.

The agent of the Prince, who is a cousin to him on ALBERT's side, arranges all his traveling matters, and stipulates in the bargain with railroad companies, that on no consideration shall any person be allowed on board the train except those necessary to manage it; and these are prohibited from entering the royal car, but ride by themselves in a forward car.

When the bargain was made with the Superintendent of the Little Miami road to convey the Prince to Pittsburgh, the agent endeavored to incorporate in the contract that the Superintendent should ride on the *front car*, and when there was anything of interest to be seen on the road, to go back and point it out to the Prince; but the Superintendent gracefully declined; whereupon the office was tendered the Assistant Superintendent, who likewise declined, and at last accounts an individual willing to accept the position was being searched for.

THE DIFFERENCE.—While the Republicans go openly before the people, with their principles inscribed on their banners, the other parties or factions are spending their time in making bargains, by means of which they hope to throw the election into Congress, or in other words, to take the election out of the hands of the people. Let Pennsylvania give a large majority for CURTIN on the 2nd Tuesday of October, and we will hear no more of these tricksters and their plots.

ANOTHER HOST.—The Albion, N. Y. *American* of Friday contained a call, signed by two hundred Americans who supported Filmore in '56, for a meeting to be held that evening, at Albion, to denounce the recent attempt to sell them to the Douglas faction of the Democratic party. The meeting was to be addressed by the Hon. James O. Putnam, Roswell Hart, of Rochester, and Roswell L. Burrows, of this City. The movement is a very important one, and will swell the majority for LINCOLN in "Little Orleans" to over 1,500.

MATTERS AT GREEN BAY.—The Brown county fair turns out to be a success. The display was "tip-top." They had a hop and a firemen's tournament, and other entertainments.

The receipts of wheat at that port for the past week was 14,847 bushels; flour, 2,030 barrels.

On Sunday last Mrs. BOGART was injured somewhat, by being thrown from a carriage, at the fair grounds

MARQUETTE COUNTY.—Judge SLOAN and ICHABOD CODDING are arousing the people of Marquette county. Their will something a "leetle" extra come out of that region this fall.

Carl Schurz's Irony.

Carl Schurz, in his great speech recently delivered in this city, made use of certain expressions which have given much offence to a portion of the Democratic and "Union" press. Speaking of the Declaration of Independence, he had the audacity to term it "a diplomatic dodge, adopted merely for the purpose of excusing the rebellious colonies in the eyes of civilized mankind; * * no longer the sacred code of the rights of man, but a hypocritical piece of special pleading, drawn up by a batch of artful pettifoggers." He even proceeded so far as to characterize the revolutionary sires as "no longer heroes and sages, but accomplished humbuggers and hypocrites, who said one thing and meant another"—with much more to the same effect.

It is true that immediately afterwards he explained his meaning by adding, "*That is the way Mr. Douglas wants you read and to understand the proudest page of American history!* This is the kind of history with which he finds it necessary to prop up his mongrel doctrine of popular sovereignty," &c. It is true that the journals which manifest such indignity at the commencement of Mr. Schurz's paragraph, have omitted to let their readers see the concluding portion. It is also true that, under ordinary circumstances, such an act of distorting a man's language and obvious meaning would be regarded as a most contemptible trick, if not a villainous fraud. Furthermore, it is true that some of our city journals, claiming to be respectably conducted, have fallen into this error.

But, nevertheless, it seems to us that our Republican friends have been a little to fast in accusing their opponents of deliberate falsehood. Charity would incline us to believe that they did not read the whole speech—they having been so terrified on perusing the first extract that their eyes refused to glance further, and their ears remained closed against the utterance of all that followed. They have been uncommonly serious for some time—serious even to severity. In their dejection of spirit and clouded state of intellect, they not unnaturally forgot the existence of that figure of speech termed *irony*. It has been all from gay to grave with them for some months past. Humor has been turned out of doors, and sarcasm has not been voted a bore. Every mode of speech having a meaning less obvious than the multiplication table, is to be discarded; and every expression less dolorous than that beginning with, "Pity the sorrows of a poor old man," is to be frowned down.

We call upon the *Tribune* and other papers to make the *amende* at once. The error did not arise from an evil disposition, but from a disordered brane, or a radical defect in the eye-sight. They did not read the whole paragraph, or they did not appreciate its little sarcasm, or, in short, any thing at all except an international fraud! That is entirely out of the question.—*N. Y. Com. Adv.*

Two Hearts that Beat as One.

Judge Douglas, in his speech at Jones' Woods, in New York, in the course of his remarks said that "he was in favor of a cordial union with every union man; every man who was true to the Constitution; *every man who was in favor of enforcing the laws in all contingencies.*"

He believed that the Union could be maintained only by *crushing out Abolitionism and Southern disunionism.*

Mr. Johnson, in his celebrated letter to Robert A. White and others, says:

"*The right of secession must be maintained. It is the last and only hope of the South.*—Let us maintain it with unanimity, and we can hold in check the spirit of Abolition and consolidation. But if we yield it, the whole theory of our federative system is changed; and we are in the power of those whose mercy is like that of the wolf to the lamb. If we yield it, we not only proclaim in advance that we will submit to usurpation and aggression, but we do worse—*we admit that we have no right to resist.* And that is POLITICAL VASSALAGE."

And again, in his letter of the 28th of May last he says:

"How unjust therefore, are the insinuations with which you intersperse and interlard your editorial comments, that all are in favor of squatter sovereignty who happen not to agree with the seceders from the Charleston Convention. I repel the insinuation, so far as it may be intended to apply to me, come from what source it may, and *plead my own record in vindication*"

Here the candidate for the Vice Presidency in a letter witten after the Charleston Convention, pleads his own past record (as he has a perfect right to do) in proof that he is not in favor of squatter sovereignty, and "the *right of secession must be maintained.*"

How unkind of Judge Douglas to declare that he will *crush out* Mr. Johnson; and equally unkind of Johnson to denounce squatter sovereignty. How beautifully they agree!

> Two souls with but a single thought,
> Two hearts that beat as one!

COLLECTING POSTAGE STAMPS.—The Boston *Advertiser* says that there is now a mania in some circles for collecting postage stamps of all nations. Some collections number three hundred varieties. It says:

"The comparisons of the different heads and legends adopted by the several powers of the world, makes the collections something more than a mere pastime, and gives to it something of the dignity and value of a collection of coffins or medals. The stamps of Mauritias and Hawaii, we believe, are accounted among the most rare, and next to these may be named the Russian, for which, acting as amateur stamp-broker, we should readily be authorized to offer a half dozen of the more common Italian, German, or French varieties, and perhaps hundreds of English or American. The great variety of stamps obtainable ceases to be surprising when it is recollected that in each of the countries where they are employed at all, several denominations are issued; and in some of them (as in the United States) there are old and new patterns, all of which are necessary in a complete collection. This elegant and curious 'mania' is now chiefly indulged by young ladies, but we cannot tell how soon it may take possession of the more mature portion of mankind. We have already suggested that it is not beneath the notice of the most dignified literary institutions."

NEARLY A LIFETIME SPENT IN PRISON.—Yesterday the police of this city received information that a colored man, named Joseph Sisse, with half a dozen *aliases*, was convicted at Mount Holley, N. J., of a burglary at the store of Mr. Rodgers, Rancocas City, for which he was sentenced to ten years' imprisonment in the State Prison at Trenton. Sisse was arrested in this city by detective officers Henderson and Chas. H. Smith, and was taken to Mount Holly, where he was convicted, as above stated. The history of this man, for eighteen years past, shows a remarkable persistence in crime, notwithstanding he has undergone long terms of imprisonment, sufficient to terrify the most hardened. In 1842 he was tried in the old Court of Quarter Sessions, before Judge Robert T. Conrad, and convicted of a burglary, for which he was sentenced, on the 14th of April of that year, to thirteen years' imprisonment in the Eastern penitentiary. He served this term out, and being convicted of another crime shortly after his liberation, was sentenced to five years' more imprisonment in the same place. This term he served also, and, after a few months' of liberty, he is again consigned to a felon's cell for ten more long years, and if he lives till he completes that term, he will have passed twenty eight years of his life in prison—Truly, the way of the transgressor is hard. *Philadelphia Press.*

OLD BUCK HAS GOT DOUGLAS AT LAST.—The Louisville *Democrat* says:

"Old Buck has got Douglas at last. In his letter to Hon. Wm. Smith, of Virginia, he says that Douglas is one of his 'Constitutional advisers.' If he can show that Douglas advised many of his acts, we are afraid our candidate has 'gone under.'"

THE CHEEVER TROUBLES.

Muscle Called in to Settle the Difficulties—The Cheever and Anti-Cheever Elements Colliding.

A meeting was held at eight o'clock on Monday evening, in the Church of the Puritan's, Union Square, to consider the difficulties which have recently arisen between Dr. Cheever and the members of that Church.

In order to give the matter understandingly to the public, it may be necessary to state that the cause of the feud between Mr. Cheever and his flock arose out of the election of Trustees a short time since, when it was charged by Mr. Abernethy, one of the Trustees, that Mr. Cheever had edged in several fraudulent votes to carry the election according to his own way of thinking.

Afterwards Mr. Abernethy also charged Mr. Cheever with the two-fold crime of insubordination and schism, and with a view of establishing or refuting those charges, a meeting was held last Thursday evening in the church, when Mr. Gilbert brought the the matter before the congregation, and requested Mr. Abernethy to withdraw his allegation in the pastor's disfavor.

Some talk and confusion ensued, amidst which Mr. Warren, Jr., made a motion to adjourn; which not having been entertained, he again moved a resolution to the effect that "this church support Dr. Cheever in every respect." At this juncture, several of those present rose indignantly, and attempted to leave the room, but the place was quickly thrown into complete darkness by some gentleman who thought that "hus" was more in consonance with the place than any other, and who turned off the gas.

A general hub-bub and rumpus was the result of this *coup de main*. Seats were overturned, women screamed, three or four of the male sex pitched in and fought each other out of the "sacred edifice," while in the midst of all, Mr. Warren, Sr., who is Chairman, and is also Superintendent of the House of Detention, made a motion to adjourn until last (Monday) evening, which was carried, himself being the only one in the darkness left to vote for his own motion.

Accordingly, they met last night, and as a pretty warm time was anticipated, we sent a reporter to the place where he found in the lobby a motley group of blacks and whites, all standing among each other, and trying to force an entrance which was denied them on the ground that they were not members of the Church.

A squad of the Eighteenth ward police, in full uniform, were drawn up in officer-like attitude, inside the corridor, and on being questioned by our reporter they said they were merely there to preserve order in case of necessity, but not to prevent any respectable well behaved citizen from going in.—Our reporter with this assurance, knocked loudly for admission, but verily that beautiful figure of scripture was not fulfilled, as he was curtly advised to seek other company, and that he could not be admitted.

In the meantime there was a continual jargon of some kind going on inside, which was at length drowned by a tremendous stentorian voice, which moved a "re-consideration" of the question, and which motion was evidently carried. Just then a weak, feminine voice, (probably that of a child,) was heard screaming within. An old gentleman who was in company with the reporter of the *Express*, and some others, standing outside, endeavored to gain ingress, fearing that something wrong was going on, but he was met by a tall shoulder-hitting looking individual who commenced to roll up his sleeves preparatory to making a fistic fling at the intruder. He was, however, prevented hurting the old gentleman by persons who had a reverence for age.

Finding that further exertions to learn anything of the inside proceedings would be fruitless, our reporter left the church, with a posse of policemen clubbed and armed, standing under the portals ready for a chance.—*N. Y. Express.*

AGRICULTURE.—I. N. LINCOLN, of William's College, delivered the agricultural address at the recent fair at North Adams. We make the following extract from this able production:

"Our farmers cultivate too much land—or 'skin' too much—they really cultivate too little. In Rome the largest farms were only allowed to contain seven acres; in Judea, under Moses' law, only sixteen to twenty acres. It is a miserable farmer who requires two or three hundred acres of land to get a living on. Farmers should sow less, and plow more; strip to their work, and not grumble about the weather, the crops, and their toil some lives; they should use their brains more and their muscles less. They should make their homes pleasant, their kitchens convenient, and so train and inspire their sons with rural taste that the western fever will not carry them off; and make good, scientific wives and housewives of their daughters. Do not let the children get a notion that agriculture is a drudgery. It makes the most pleasant, profitable, honorable, and healthful of all pursuits, and it establishes neighborhoods and leads to the amenities of life."

THE number of sewing machines making the Grover & Baker Stitch now sold in the United States, far exceeds that of all others combined. The truth is, since the people have found out by experience the value of this stitch, the well informed will use no other. These machines must be purchased of the Grover & Baker Sewing Machine Co., who are exclusive proprietors of this stitch, or their licenses; or the use of them will subject the purchaser to prosecution.

VINEGAR! VINEGAR!
THE MANUFACTURE OF VINEGAR. Its Theory and Practice, with especial reference to the quick process: by Charles M. Wetherill. A great part of the contents of this work may be found scattered over the several treatises of pure and applied chemistry; but on the other hand, there is no concise, reliable American work accessible to the inexperienced, or practical vinegar manufacturer, in which he can find what information is needful for carrying out his process to the best advantage.
Vinegar making will continue to be an extensive and widely diffused manufacture, and its importance will increase as our country becomes more widely occupied. This fact is self-evident; since a large portion of the freight upon each barrel of vinegar is paid upon the universally-to-be-had water.

Bryan's Tasteless Vermifuge.

SAVED! SAVED!

Physicians in vain came again and again,
The dear little angel grew worse,
"'Tis a fatal disease, and we can't give her ease,"
Said the doctors to mother and nurse.
But the nurse in plain terms said, "'tis nothing but worms,"
And a cure pointed out right away;
Bryan's Vermifuge mild, then they gave to the child,
And behold! she was well the next day.

Judson's Mountain Herb Pills.

HOW STRANGE AND WONDERFUL it often seems to us that a medicine composed of simple mountain herbs and roots, should so certainly search out and cure disease. How surprising that the Indians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the ancient inhabitants of Mexico were a strange race, found by the Spaniards living in large cities, and allowing for their strange customs and religion as well civilized as their conquerors. In the words of a writer of some celebrity, "They have perished from the earth, their cities are gigantic piles of ruins, their Kings and Princes so mighty in their life, are forgotten; their ruins and their medicine alone are left." The united testimony of all intelligent persons is that JUDSON'S MOUNTAIN HERB PILLS are the most successful medicine in the world in curing disease.

Sold by all Medicine Dealers.

To the Memory of J. L. C., who was lost in the Lady Elgin.

PUBLISHED BY REQUEST.

The last faint hope has passed away we cherished until now;
That the relentless King had kept his death-seal from thy brow;
That a doom so dark and dreadful might not be thy fate to share,
And the crushing weight of certainty 'tis agony to bear.
Thine was a sorrow-clouded life—thine a bitter death—
And the waves were not less merciful than the human ones of earth:
Few gave the credit due thy worth, few saw the virtues hidden,
But to weaknesses thy nature knew all mercy seemed forbidden.

The light that told thy presence hath scarce faded from our view,
And our hands yet warmly thrill 'neath the grasp of friendship true;
We still gaze in thine eyes, in whose depths did genius dwell,
And we note their thoughtful sadness as they spoke the last farewell.
Alas! how little dreamed we then the future's tale of woe—
That ere another moon should wane, would tears of anguish flow,
With scarce a moment given thee to plead for mercy, grace,
Thou wert hurried from this life to meet thy Maker face to face:
Gone, gone, when prospects fairest through the future's glass were seen,
But in memory thou'rt immortal—thy home is ever green.

O God, we may not question the wisdom of Thy ways;
This, as every other act, Thy omnipotence displays;
Forgive thy wounded children, if rebellious thoughts arise,
And let us meekly kiss the rod Thou takest to chastise.
To the mourning ones bereft, grant comfort, we beseech;
Pour on their sorely bleeding hearts Thy blessed oil of peace,
That submissive to Thy will they may in humble accents frame:
'Twas thou who gave, who taketh away, and blessed be thy name!

TALE OF THE LAND OF FLOWERS.

BY CAROLINE LEE HENTZ.

"Oh seldom have we heard a tale,
So sad, so tender, yet so true."

The incidents we are about to relate are true, but feelings of delicacy induce us to throw a veil around them by substituting names. This is all the fiction connected with the sketch.

Emma and Lelia Wayne were two lovely, fair-haired, blue-eyed girls, just blooming into womanhood. They seemed the favorites of nature and of fortune. Their father, a wealthy merchant, was one of the most affectionate and indulgent of fathers in the world. He was proud of his fair, sweet-faced daughters, and they were proud of him. He was a remarkably handsome man, and the generous qualities of his soul diffused their glow and lustre over his countenance. Their mother was an invalid, and constantly confined to her room, but her gentleness and piety made her chamber seem nearer Heaven than any other apartment in the house. Wherever they moved these two young girls breathed an atmosphere of love, and diffused it around them as they moved.

Emma, the eldest, had a brighter eye and a deeper bloom than her sister. Her smile was more joyous, her step more elastic, and her voice had a gayer tone. Lelia had one of those haunting countenances, which once seen is remembered forever, with a thrill of sadness, too. It is said that every face is either a history or a prophecy. Lelia's was a prophecy. She had large, languishing, mournful, loving, melting eyes, that looked up wishfully through the long lashes, darker than her hair, then suddenly dropped, as if fearful they revealed too much of what was passing within her heart. Her mouth was very lovely, but a shade of melancholy hovered round its roses. An abundance of flaxen hair, always simply and gracefully arranged, softened the outlines of her painfully interesting face. The expression may seem strange, but no one could look upon Lelia without feeling that she was born to love and suffer too deeply. As yet her capacities for love and suffering were undeveloped, and while so tenderly shielded by parental care, it seemed impossible for sorrow or disappointment to approach with their blighting influences.

Mr. Wayne did wish or expect to keep his daughters from marriage, but he said he could not be parted from them. Their mother's health was too delicate for separation.—Whoever should win the treasure of their affections must consent to live near the shadow of the parental roof. It was not long before Emma married a promising young lawyer, and was established in an elegant mansion contiguous to her home.—She was happy, and her parents were happy in this union, and Lelia tried to be happy, too; but she felt as if a stranger had come between her and the bosom companion of her youth and childhood. Her sister could never be to her what she was before, and she sighed at the very thought that Emma loved another better than herself.

Just at this time she became acquainted with a young and gallant officer, with laurels gathered in the "land of flowers," blooming on his youthful brow. There was a grace, a gallantry, a chivalry in his manners that charmed the romantic and tender Lelia. We will call him Clifford, not wishing to make use of his real name. He was returning to his post on the frontiers, where with numbers of his brave countrymen he was defending the borders from the depredations of the red man—dangerous and protracted warfare!

Young Clifford conceived for Lelia Wayne one of those deep and impassioned attachments, which once in a while break in on the dull routine of every day life. The military character is invested with a peculiar charm. The military gentleman is generally graced with peculiarly attractive manners.—Lelia yielded to their influence. Her large, melancholy blue eyes were now illuminated with the light of love. It was like moonbeams shining on the mist of the valley, and transforming it to a silvery glow.

Clifford presented his suit with characteristic ardor. With the frankness of a soldier, he declared his sentiments to Mr. Wayne, and asked him for his daughter, assuring him that his love was returned, and that Lelia had authorized him to entreat his sanction to their immediate union. Mr. Wayne turned pale as he listened. He liked, he admired the young man; but he could not consent that his daughter should leave him for the dark and stormy scenes to which his duty called him return. No! it was impossible. It would kill her mother—it would make himself unspeakably wretched. It must not be. Lelia had been nurtured in the lap of luxury. She had never known privation or care. She was too delicate a flower to bloom in the camp, too frail to be exposed to the unspeakable horrors of Indian warfare.

With feeling and tenderness, yet firmness and decision, he told the young man he never, never could consent to their union, and he begged him as he regarded the happiness of Lelia, never to seek her presence again. He demanded the sacrifice of him, but Clifford would not promise what he felt he had not the power to accomplish. He could not go without seeing Lelia once more, and that meeting sealed her destiny.—Weighed down by the burden of her love and sorrow, she rashly consented to a clandestine union. At the house of a mutual friend, who imprudently promised secrecy and aid, the ill-starred marriage was consummated, which made the loving and trusting Lelia an alien from her father's roof. Mr. Wayne, justly incensed, refused to see his disobedient child, but the invalid mother yearned over her lost darling. In her husband's absence she sent for her daughter, who wept in agony on her bosom, when she saw how much her desertion had added to the ravages of disease, on that pale and gentle face. Mrs. Wayne forgave and blessed her, committing her to the care and mercy of her heavenly Father, and suffered her to depart. Never more was she to behold that fair, young, pensive countenance. The prophecy written on her brow was about to be fulfilled.

The parting with her sister was another bitter trial. She began to realize the strength of the ties she was sundering. She understood for the first time the metaphor of the bleeding heart. Could she but only see her father, only see him herself unseen, she thought she should feel comparatively happy, and she did see him thus. But instead of feeling happy, her anguish was increased by her remorse. He looked so pale, so sad, so stern—looked as if he could never smile again. What an ungrateful return she made for his tender, his guardian cares. She had forsaken him for a stranger of a day. She had left the guide of her youth. Yet even in the midst of her sorrow and joy she exulted in the mighty sacrifice she had made on the altar of love. It was for Clifford she was enduring a father's just resentment—it was for Clifford she was leaving a loving mother and tender sister—home, fortune and friends—and she loved him the dearer for the costly price she paid for his love.

It was the first time that she had ever been a traveler. Born amid the magnificent scenery of the West, she had a vivid conception of the beautiful and the sublime.—At first she was incapable of doing anything but look back, through blinding tears, on her native city and picturesque surroundings, as the boat glided down the noble river, on whose glassy waves she had looked down so many years, little dreaming that she would float over its bosom a discarded daughter, a clandestine bride. For a time, she could only think of all she was resigning; but youthful feelings are transient, and she soon gave up to the joy of the present moment, while hope spanned with its *arc en ciel* the clouds of the future. Arrived at her new home, the charm of novelty threw an illusion over every object. The fort which her husband commanded had a sublime aspect in her eyes, with the star spangled banner floating from its walls. The martial music, how inspiring it was! The soldiers, with their measured tread and respectful bearing, she loved to gaze upon, especially when they gave the graceful military salute to her husband. She loved the morning reveille and the evening serenade, and in her enthusiasm thought she never should weary of military life.

She saw nothing of the wild Indians who infested the border, and growing fearless by unmolested tranquility, entreated her husband to let her roam in the woods for the wild flowers, which had given name to the region in which she now dwelt. This, however, he constantly refused, never allowing her to go beyond the limits of the fort unprotected by his presence.

It was strange to see this young and lovely female in a rude fort surrounded by officers and soldiers, and all the rough paraphernalia of war. She moved among the groups like an angel, sent to minister to their ruder natures, and had danger threatened her not a man but what would have died in her defence. Alas! alas! that danger was so near!

Medical.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR

FROM

THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

It is not too Much to Say

SINCE ALL,

OLD AND YOUNG

Affirm its Truth,

VIZ: THAT PROF. WOOD'S HAIR RESTORATIVE will preserve *infallibly* the *growth* and *color* of the hair, if used two or three times a week, to any imaginable age. Perfectly restore the gray, cover the bald with nature's own ornament, the hair; make it more soft and beautiful than any oil, and preserve the scalp free from all disease to the greatest age. Statesmen Judges, Attorneys, Doctors, Clergymen, Professional men, and Gentlemen and Ladies of all classes, all over the world, bear testimony that we do not say too much in its favor. Read the following, and judge:

HICKORY GROVE, St. Charles Co., Mo.,
November 19, 1857.

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Hair Restorative; we did so with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are,

Yours respectfully,
GEORGE W. HIGGINBOTHAM,
ARAH A. HIGGINBOTHAM.

PROF. WOOD—Dear Sir: My hair had, for several years, been becoming prematurely gray, accompanied by a harshness which rendered the constant application of oil necessary in dressing it. When I commenced using your Hair Restorative about two months ago it was in that condition; and having continued its use till within the last three weeks, it has been turned to its natural color, and assumed a softness and lustre greatly to be preferred to those produced by the application of oils or any other preparation I have ever used. I regard it as an indispensable article for every lady's toilet, whether to be used as a Hair Restorative or for the simple purpose of dressing or beautifying the hair. You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it.

MRS. C. SYMONDS,
Cincinnati, Ohio, Feb. 10, 1857 114 Third st.

WELLINGTON, Mo., Dec. 5, 1857.

PROF. WOOD—Dear Sir: By the advice of a friend of mine, who had been using your Restorative, I was induced to try it. I had the fever, some time last May, and nearly every hair in my head came out. Now my hair has come in great deal thicker than ever it was. Nothing but a duty and sympathy that I feel to communicate to others who are afflicted as I have been, would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative.

Yours respectfully,
A. E. JACOBS.

The Restorative is put up in bottles of three sizes, viz: Large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

DR. CHURCHILL'S REMEDY.

—WINCHESTER'S GENUINE PREPARATION OF THE—

HYPOPHOSPHITES

OF LIME AND OF SODA,

(Made from the Formula of Dr. J. F. Churchill,)

FOR THE PREVENTION AND CURE OF

CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This Remedy has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D., Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moss, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. S. Rees, Morristown, N. J.*

"I have derived more satisfaction from the use of your hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Maris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—*Am. Druggists' Circular.*

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination.

Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 5, 1860.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease. I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in a large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption

IS NOW READY.

☞ The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.

MOFFAT'S

Life Pills and Phœnix Bitters!

THESE MEDICINES HAVE NOW been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the Globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the

VEGETABLE LIFE MEDICINES

Are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of respiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

SCURVY, ULCERS and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS by their alterative effect upon the fluids that feed the skin, and the morbid state which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two in the worst cases.

PILES.—The original proprietor of these Medicines, was cured of Piles, of 35 years standing by the use of the LIFE MEDICINES alone.

FEVER AND AGUE.—For this scourge of the western country, these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure of these Medicines is permanent—TRY THEM, BE SATISFIED AND BE CURED.

BILIOUS FEVERS AND LIVER COMPLAINTS.—General Debility, Loss of Appetite, and Diseases of Females—the Medicines have been used with the most beneficial results in cases of this description; King's Evil and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Cholic, are speedily cured.

MERCURIAL DISEASES.—Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

Prepared and sold by W. B. MOFFAT,
335 Broadway, New York.

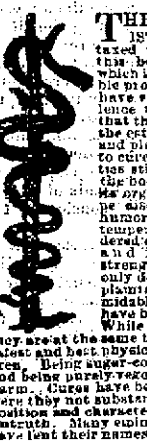
Ayer's Cathartic Pills.



THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints: Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.

LATEST NEWS!

BY LAST NIGHT'S REPORT

☞ Owing to some cause known only to the telegraph company, we are without our usual evening report.

Railroad War!—The affairs of the Milwaukee & Horicon Railroad have assumed a new phase. The road, as is known, was some time since taken possession of by Mr. L. Ward as Receiver, under a decree obtained from the U. S. District Court. The parties formerly controlling the road, Messrs. Vliet, Smith and others, of Milwaukee, have obtained an injunction from the State Supreme Court, which was yesterday served upon Mr. Ward and Superintendent Harkness, at Horicon, enjoining them from farther operations on the road. At the same time papers issued from the Circuit Court of Milwaukee were served on Ward and Harkness, putting the road in possession of Vliet and Smith. The parties holding under the decree of Judge Miller's Court refuse to yield possession. Harkness came up from Horicon last night, with an engine and tender, to raise a force here and take to Horicon, to defend the railroad property against the attempts of Vliet and Smith to get possession.

Before he had rallied his men, an engine and passenger car loaded with Vliet forces arrived from Horicon, the latter immediately boarded Harkness' engine, "pitched out" the four or five persons on it, attached it to their train and went on to Berlin. Harkness' men have taken up the track on the bridge at this place and also barricaded it by piling lumber and cars across it. They have also a field piece mounted in a position to command the track, near the depot. The Vliet train came down this morning into the north part of the city, and after reconnoitering, went back to Berlin. Harkness left this morning on a hand-car for Horicon.—Thus affairs stand at the writing.

Since putting in type the foregoing we learn that it is J. C. Fairchild, of Madison, (who represents the Vliet interest by virtue of an appointment as Receiver by the Supreme Court,) who is seeking to oust Ward and Harkness. Mr. Cotton, of Milwaukee, acting as the agent of Fairchild, is the active man in enforcing the injunction of the Supreme Court.—*Ripon Times.*

LATER.

[*From the Ripon Star Extra, Sept. 29th.*]

On Thursday last the freight train from Milwaukee, due at 9 o'clock A. M., did not arrive until noon, and when it did come was in possession of men who are operating with Smith and Vliet, the old managers of the road. These men have been operating ever since they were ousted to regain a foot-hold, and finding no chance to succeed in this, have turned their attention entirely toward efforts to defeat, and interfere with the regular operation of the business of the road. To this end, having secured the co-operation of some of the employees upon the road by inducing them to believe that they could give them employment, and, having obtained a *preliminary* injunction, commanding the Receiver to desist from *operating* the road, they did obtain so much possession as to run from Horicon to Berlin and back, whereupon the people, who were not under injunction, took possession of the road and drove off the interlopers, running the trains and holding the possession until this afternoon, when the injunction being removed, the people resigned the possession to the hands of the Receiver, Ward, where they considered their interests safe.

The Road is now quietly in its right possession, and excepting some slight disarrangement of machinery, in usual order and quiet. Trains will now run as usual.

The people of Ripon and vicinity took hold of the matter with a will from the outset and acted. To-day a spontaneous meeting of citizens to an immense number appointed a committee to report resolutions to a meeting to be held at the depot upon the arrival of the evening train. At this time 2,000 or 3,000 have gathered together, have passed resolutions presented by the Chairman of the Committee on Resolutions, Mr. H. Mead, amid the wildest shouts of joy and the booming of cannon, which announce their satisfaction at the arrival of the train all right, in the possession of Ward.

The following are the Resolutions adopted:

Whereas, The appointment of Lindsey Ward as Receiver of the Milwaukee and Horicon Rail Road was a step demanded by the interests of the Stockholders and the community doing business with such company,

Whereas, The conduct of the affairs of the Company by said Receiver Ward, and the running of the Road by Superintendent D. L. Harkness, has been upright, forward and eminently successful, fully demonstrating the capacity of the Road to sustain itself, as well as showing the previous corruption; that we will do everything legally within our power to sustain the Receivership of Mr. Ward and the management of Mr. Harkness, and that their present possession being fully legal we will sustain it.

And we also further *Resolve* and pledge ourselves that no Railroad can be run through the Town and City of Ripon, while under the management of Smith and Vliet, or any one directly or indirectly in interest with or for them, nor shall trains be run through the Town or managed in the Town, by those persons who have been active in the recent efforts to reinstate Smith and Vliet.

MONETARY.

Monday P. M., October 1, 1860.

There has been no change in the condition of money matters since Saturday. We are informed that there is a lively business doing in Eastern Exchange, which was very firm to-day at 1¾ premium. Currency continues plenty.

NEW YORK MONEY MATTERS.

We have the following by telegraph from New York to-day, in reference to money and stocks:

Money and Exchange unchanged; fair business doing. Stocks dull; changes in prices unimportant. C & R I 77⅝; C B & Q 89¾; C & T 47½; C C & C 93; Ill C scrip 86¼; Pan 125¼; M S gtd 50¼; M C 70; G & C 77½; Har prefd 38½; Huds 63¼; N Y C 90½; Tenn 6s 90¾; Mo 79½; Erie 2d bds 99¼; M & M 2d bds 55; Hudson 3d bds 91¼.

CHICAGO MONEY MARKET.

The *Press & Tribune* of this morning says:

Exchange has been heavy during the day at the current rates, viz: 1 per cent premium. The banks have sold during the day at the regular price, but we presume a concession of a fraction would have been made by some of them for large sums. In the street ½@¾ were the ruling figures. The banks bought from customers at ¾; but ¼@½ was all they were willing to pay to outsiders.

Gold buying at ½@1 ₩ cent; selling at 1¼@1½, the lower figures for round lots.

Generally the money market is working easier. It is becoming more plenty every week, but the large amount of business doing keeps it in active request. As soon as navigation closes we look for easier times than have been seen in the city for years past.

The receipts of wheat by the Wat. & Baraboo Valley R. R. are not reported to-day, owing to the neglect of the Clerk at the Railroad office having that in charge. With them the total would be about 100,000 bus. The market opened very quiet to-day at Saturday's decline, sellers mostly preferring to take the chances of waiting for the steamer's news rather than sell at the prices offering. On 'Change the *Glasgow's* advices were telegraphed announcing the Liverpool breadstuffs market firm, at a slight advance under the influence of unfavorable crop weather, on receipt of which prices immediately went up 1c, the market becoming very firm and before the close, 90c for No. 1 spring in store, and 88c for No. 2 were freely offered. There was no perceptible change in flour, and in fact very little business done, owing to the difference between views of buyers and sellers. A couple of hundred barrels choice Extra were sold at $4,75.

Grain freights declined ½@1c. The prop. *Potomac* was chartered to load with wheat at Racine for Buffalo at 14c; the schr. *Wm. Case* to load here at 13½c; the *L. J. Farwell* at 13¼, and the *Lucy Raab* at 12c, and doubtless others not reported, as there was a large fleet in the harbor.

In reference to the market the *Press & Tribune* says:

The receipts of wheat amounted to 129,193 bushels. The market, under this supply, as well as the dullness prevailing in Eastern markets, was exceedingly heavy, and the transactions were comparatively light at about 1c decline. Very little was sold to shippers, as they are holding off for further concessions, or an improvement in the tone of European and Eastern markets. Only about 70,000 bus changed hands at 87½@88c for Northwestern club; 86@87c for No. 1 Spring; and 83@84c for No. 2 do—all parties holding off at the close for the *Saxonia's* news, now nearly due.—The flour market was more active to-day, at a shade easier rates. About 1,300 bbls were sold at $4,50@4,85 for Spring extras, and $6 for white winter. Corn was in good demand, and prices ruled ½@1c higher, with sales of No. 2 Canal at 39½@40c in store; and No. 2 at 39c in store. Oats steady and more active. Rye quiet. Barley rather dull.—Highwines quiet at 19c for Country, and 19½c for City. Mess Pork is firm at $19,50. Tallow scarce and firm. Hides in good demand and firm.

Freights were a shade firmer to-day—the rates for sail vessels being 13½c for wheat to Buffalo, and 8½c for corn to Port Sarnia.

ST. LOUIS MARKET, SEPT. 29.

From the *Democrat:*

Flour—The demand is confined to retailers' lots and for bags on orders. Country brands are quite dull.—Sale of 1,000 bbls city superfine on private terms; 75 bbls choice do $5 25; 100 do fancy $5 40; 150 do fancy $5 50; 100 do country super $4 95 on board; 50 do choice super $5 10; 75 do low grade $4 50; 40 do do fine $4 00; 200 bags city fancy $2 75; 150 do super $2 55, 91 do country extra $2 40 ₩ bag.

Wheat—The market for superfine grades of fall was heavy, and prices lower, while prime and choice was barely sustained. There was a good deal of common spring and club on the market, which went at a decline; best qualities of club about the same as on Wednesday. Sales embrace 800 bags mixed and poor spring at 75@80; 1,450 do good spring at 85c; 460 do prime and choice spring 90@95c; 1,325 do common and good club 90@95c; 2,200 do prime and choice club $1 02½; 855 do poor fall 95c@1 05; 200 do fair red $1 10@1 12½; 252 do prime red $1 17½; 27 do $1 20; 1,070 do choice red and white $1 23@1 27, bags returned.

Corn—The demand was good and prices steady.—Sales include 152 bags common mixed 46½c; 700 do prime mixed 48c; 1,200 do northern mixed 49½c; 1,550 bags yellow and mixed white 50@51c; 450 bags prime white 52c, and 115 do choice white $1 23@1 27, bags returned.

Oats—The market was steady and firm. Sales of 200 bags good at 32½c; 3,800 do prime at 33½c; 620 do choice at 34@34½c, bags included; and 300 do in double gunnies, at 35c, delivered on board.

Barley—No material change; sale of 100 and 250 bags prime spring at 75c, and 68 do fall at $1 00, all without bags.

Rye—Dull at last quotations; sale of 33 and 40 bags at 60c, and 88 do at 60½c, includings bags.

Whiskey—Market unsettled and irregular; sales include 40 bbls at 19c; 50 do at the market; 56 do at 18¾c; and 272 do, in lots, at 18¾c.

CINCINNATI MARKET, FRIDAY.

There was a little more done in flour to-day, but the demand did not come up to the offerings. Prices are unchanged, however, as holders seem unwilling to make any concessions in order to induce buyers to come forward. Superfine may be quoted at $5@5,10, extra at $5,15@5,25; extra family w. w. $5,30 to $5,50. Fancy brands range from this up to $6,20.—Wheat was dull, but prices did not undergo any change. The demand fell off some, and the market for both it and flour closed heavy under the advices from New York. Corn dull and prices are rather easier though not lower. There is not much offering; 50c for ear, in bulk, is the current rate. Contracts are talked of for new at 35c. Rye is firm at 70@71c. Barley 55c@$1, and oats 31c without any change in the demand since yesterday. A good demand for whiskey, and prices tended upward at the close, under the very favorable news from New York, where a large demand prevailed to-day, at higher prices. Hay advanced to $17 ₩ ton for prime timothy. Cheese firm at 9½c.

In the Provision market nothing has transpired, the demand for all articles is so trifling, that prices, except in the retail way, are merely nominal. Bacon continues to be offered at 8¾ and 11½c. First class brands mess pork are offered at $18,00. Nothing said about bulk meat. We understood that a lot of clear bacon sides sold yesterday at 13½, but did not learn any further particulars. Not any in market.

Hogs, for future delivery, were reported firmer to-day, with buyers for December at $6,25, but we did not hear of any sales. Indeed, we think there are but few willing to buy or sell at the quotations. Linseed oil is in active demand at 57@57½c. A good country business doing in the Grocery market at full prices.—Cuba sugar sells at 8@8¾; Porto Rico 8½@9¼; and New Orleans 8¼@9½. Coffee in fair demand and very firm at 14¾@15½. No stock. Molasses 41@48, and in fair demand.

COMMERCIAL CIRCULARS BY THE PERSIA—MILWAUKEE WHEAT IN THE GLASGOW MARKET.

[From the Glasgow Circular, Sept. 14.]

Breadstuffs—The weather this week has been less favorable for the crops, and a little more firmness is apparent in the corn market; there is, however, only retail sales to report at 26s6d extra quality for Chicago, and 27s to 27s6d extra store for Milwaukee wheat. The reports from the southern markets to-day read stronger, and holders want 28s now for good Milwaukee in store. The business in flour has been small; some choice Canadian superfine sold at 28s extra quality, but to-day 29s is the price offered for such. Extra State is offered at same price. A few retail sales of Ohio reported at 30 to 31s. Indian Corn is held firmly, owing to continued bad reports of the potato crops in England and Ireland; as yet there is no disease in potatoes here worth speaking about.

Oils—Sperm is in retail demand at our quotations.

Lard—Retail sales at 63s, and holders talk of raising the price to 65s.

Provisions—We have no sales to report in Beef, Pork and Bacon. Sales of Cheese and Bacon. Sales of Cheese and Butter at our quotations, and very little stock now left of either unsold.

[From Bigland, Athaye & Co's Liverpool Circular, Sept. 14.]

Breadstuffs—The weather during the week has been uninterruptedly fine for harvest work, but to-day looks unsettled and stormy; most of the wheat in this neighborhood is cut, but very little yet secured. Further acquaintance with the new crop only strengthens the conviction that even should the quantity prove an average—which is doubted, the quality will be greatly inferior to that of late years, and that a very large proportion of foreign will be required for milling, the stock of old English in the country being greatly reduced; it is probable, therefore, that we shall shortly see some reaction from the recent smart decline in prices. The reports of the potatoes grow more unfavorable from all parts of the country.

The depression in the trade reported in our last circular,—a most amounted to a panic—subsided early in the week, and at Tuesday's market a fair retail business was done in wheat at prices that were only nominal on Friday. Flour was but little inquired for, but holders were not so pressing. Indian corn met a slow sale at a decline of 6d per qr.

Since Tuesday the trade has ruled quiet but steady, and at to day's market a more cheerful tone prevailed, and a fair consumptive business was done in wheat at the full prices of Tuesday. Very large arrivals of French flour made buyers pause, but prices were no lower. Indian corn was in better demand, and the decline of Tuesday was recovered, the market closing strong for this article.

Provisions—There has been rather more doing in beef this week, chiefly in the finer descriptions, and holders meet buyers very freely. Pork is also in better demand, and as the stock is getting reduced, holders are firm. There is a fair demand for prime butter, but inferior and heated, of which our stock mostly consists, is extremely difficult to sell, and for such, quotations are quite nominal. American cheese is rather lower, owing to a considerable in the value of English

Lard is firmly held; 66s has been paid in retail for prime quality; 62s to 64s is the value of refining. The week's sales do not exceed 50 tons.

Tallow is in rather better demand, but we cannot quote any improvement in prices.

Milwaukee Wisconsin

THE ATTENTION OF THE YOUNG men of Wisconsin in particular, and of the Western and North-western States generally, is respectfully called to the advantages which this Institution offers for the acquisition of a knowledge of

BOOK-KEEPING

And commercial pursuits generally. It is now in a flourishing condition, and is working under a CHARTER OF INCORPORATION. The rooms are large and commodious, and are fitted up in splendid style. On introducing the subject to the student, he is led carefully, step by step, through the fundamental and general features of the science; and when these are fully realized, he is required to embark into a career of general speculation and merchandising, framing and adjusting contracts, purchases, sales, &c., &c.; making the necessary entries in the principal and auxiliary books, in precisely the same manner and order as they are made by the skillful Book-Keeper, in the counting-room of actual business.

Thus when the work is completed, the Student finds himself, not a mere theoretical, but a practical accountant, being fully conversant with every branch of this interesting and important science, as applied to General Mercantile, Wholesale, Retail, Commission, Importing, Exporting, Foreign and Domestic Shipping, Stocks, Exchange, Banking, Manufacturing, Mining, Steamboating, Railroading and business of Co-partnership or Company speculation, in each of which, he has met with adverse as well as prosperous operation.

The Ladies' Department is entirely separate and tastefully furnished.

Terms:—For a full course of instruction, with the privilege of completing the same at any time, including penmanship thus affording a life Scholarship, $40.

ESTABLISHED IN 1847.

CITY AUCTION ROOM.

I AM NOW SETTLED IN MY NEW store, corner of Wisconsin and Main Streets, (Young's Block) a few doors below the Post Office. I have taken this location because I think it preferable for the auction business to any other in the city. Thousands of people pass the corner where I now am, which pass no other in the city, for it is well known that every person goes to the Post Office. I call upon all who have any Dry Goods, Boots and Shoes, Furniture, or Apples, or anything whatever, that they want to dispose of at auction, to send it to my auction room. I will use all my energy to dispose of all goods consigned to me to the best advantage, and prompt returns will be made. I have been engaged in the auction business in this city for thirteen years, and I have tried to do what is right unto all.

I also continue my Land Agency business. My office is in the rear of my store, entrance on Main St. I will attend to all sales of Real Estate either at public or private sale. I will make exchange of real estate with all who want to exchange. Any who have goods to exchange for good real estate in the city or country, I can always get them up a good trade and some money with it; probably there was never a better time to invest in real estate than the present. Prices of lots in our city are very low; lands adjoining our city are exceedingly low, compared to prices four years ago; but these low prices will not last long, and it is generally believed by all who have lived as long in the West as I have, that next spring will see a sudden rise in real estate throughout this city and country.

This is the time to secure you a good homestead Now is the time to make investments. I call upon all who have property to dispose of to leave a list of the same with me. I keep a register expressly for that purpose, which will be exposed to the inspection of all, from day to day. I shall keep myself posted in real estate, from day to day, as I have done for the last ten years, and will be happy to give information to all who may wish it.

To Shippers of Freight

TO THE NORTH-WEST.

THE LA CROSSE & ST. PAUL

UNITED STATES MAIL PACKET LINE

Running only between LA CROSSE & ST. PAUL for the transmission of

Passengers, Freight and Mails.

THE PACKET LINE IS COMPOSED of the Steam Packets

Favorite, Frank Steele, Winona, and Aeolian,

Acknowledged to be the best boats for the trade upon the Upper Mississippi, being of lighter draft than any now running.

This Line carries the United States Mail, and has not missed a daily connection since it was established, with the trains, either way, upon the La Crosse & Milwaukee Railroad.

Shippers from Milwaukee will see that this is the most reliable Line of Boats for Freights, as the lightness of draft enables them to make their trip without delay, while by any other route delays are unavoidable.

One of the above Boats will leave La Crosse every evening, on the arrival of the 1:55 P. M. train from Milwaukee, and returning arrive at La Crosse in season to connect with the Express Passenger train, which leaves at 5 A. M.
